KEY EVENTS

BUSINESS HIGHLIGHTS

Residential sales

467 apartments and commercial units with a total surface of 42,634 sqm, 570 parking spaces and other unit types were sold and pre-sold for a total of EUR 137.7 million in 9M 2025. A year prior, in 9M 2024, the Group sold and pre-sold 713 apartments and commercial units with a total surface of 71,886 sqm, 1,071 parking spaces and other units for a total of EUR 190.6 million.

The 22% increase in the average sales price per sqm in 9M 2025 versus 9M 2024 is a continuation of the trend visible in the previous two quarters of 2025, and was driven by the sales mix, which consisted primarily of units in advanced stages of construction, such as One Lake Club and One High District. No new pre-sales were launched in the last five consecutive quarters, with the most recent addition to the portfolio being One Lake District Phase 2, in May 2024. As a result, the sales team has concentrated on successfully placing remaining units in projects nearing completion, contributing to the higher average sales price per sqm.

The total value of the residential sales as presented above does not include the pre-sales to early clients, which are lower margin sales that help finance land acquisition. These are units that the Group pre-sold to early clients at developments where construction did not begin. The total value of these sales in 9M 2025 was EUR 17.6 million, vs EUR 9.8 million for 9M 2024.

As of September 30th, 2025, 82% of the available apartments under development and delivered were sold, leaving 1,089 units in the sales team portfolio. Within this total, 74% of units in projects under development were already pre-sold, while finalized developments with remaining inventory reached a 96% sales rate. To meet demand and capture interest in premium residential segments of Bucharest, the Company plans to expand the sales pipeline in the coming months with new launches.

By sellable area, One United Properties sold the most of 2-room (1 bedroom) apartments, with a total sellable area of 17,501 sqm, with the demand being the highest at One Lake District Phase 2 and One High District. It was followed by the 4-room (3 bedrooms) apartments, with a total sellable area of 12,545 sqm, with demand being highest at One Lake Club, One Floreasca Towers and One Lake District Phase 2. A detailed breakdown of sales by apartment type and total saleable area for 9M 2025 is presented below:

Apartment type	9M 2025	Saleable area (sqm)
Studio	23	1,248
2-room (1 bedroom)	263	17,501
3-room (2 bedrooms)	81	8,376

5+ room & villas (4+ bedrooms)	3	846
Commercial units	16	2,117
TOTAL UNITS SOLD	467	42,634

The company's top-selling development in 9M 2025 was One Lake District Phase 2, where 115 units were sold, adding to a total 454 out of 867 units being sold out as of the end of 9M 2025. The second best-

selling development was One High District, with 109 units sold within the nine months period, adding to a total of 740 units being sold as of end of 9M 2025, out of a total of 841 units. The third most sought after development was One Lake Club Phase 1, where 72 units were sold in 9M 2025, adding to a total 376 units sold since the sales launch. One Lake Club development will be labeled as 'Furnished by Armani/Casa' following the conclusion of a partnership with Armani/Casa in November 2023.

The 9M 2025 sales for key developments, together with the total number of units sold from the launch of the sales until September 30th, 2025, are as follows:

NOTE: ¹Due to the refurbishment process at Bucur Obor, some spaces are intentionally left unoccupied to allow the temporary relocation of certain essential operators while necessary renovations are being conducted inside the building. Consequently, the space is considered occupied.

In 9M 2025, One United Properties leased and pre-leased 7,739 sqm of office and retail spaces across the commercial portfolio. Moreover, the Company signed multiple lease extensions for a total area of 21,900 sqm.

Development

As of September 30th, 2025, One United Properties had under construction a total of 3,817 units, 22,000 sqm of office spaces and 21,000 sqm of commercial spaces with a total Gross Development Value (GDV) of over EUR 1.4 billion. In the first nine months of 2025, One United Properties finalized 138 units at One Lake Club (Phase 2) and 86 units at One Mamaia Nord 2. One Herastrau Vista, One Floreasca Towers and One North Lofts are scheduled for finalization before the yearend.

Landbank

As of September 30th, 2025, One United Properties had in ownership or under pre-SPA 467.5k sqm of land locations for further development, with total above-ground gross building rights (GBA) of over 1.2 million sqm. All these land plots are currently in the planning phase, with estimated GDV of additional EUR 2.35 billion. The Group estimates the construction of 9,650 apartments, services for communities, and 151k sqm of rental commercial buildings. Out of the commercial buildings, 121k sqm will host offices and the remaining 30k sqm are located within buildings that will undergo restoration.

Strategic expansion through land acquisition in Sibiu

On August 4th, 2025, One United Properties announced the signing of a promissory sale and purchase agreement for approximately 28,825 sqm of land and existing buildings located on the former FLARO industrial platform in Sibiu, through its fully owned subsidiary ONE PROIECT 24 S.R.L. This transaction marks the Company's entry into Sibiu, reinforcing its national expansion strategy beyond Bucharest and Constanța.

The centrally located site will be developed into a mixed-use community, blending residential, commercial, and service functions. As part of the project, four historical buildings, including the former Gratioza fountain-pen factory, will be preserved and integrated into the development, supporting both urban regeneration and heritage preservation. This acquisition strengthens the Company's medium-term pipeline and aligns with its long-term strategy to target Romania's most dynamic regional markets. Completion is subject to customary conditions, including receipt of the final building permit, expected by end-2026. [More information HERE.](#)

Purchase of land for new residential development – One Academy Club

On September 26th, 2025, One United Properties announced the acquisition of a plot of land with a surface area of 14,295 square meters, located on Radu Tudoran Street (four-lane road), parallel to Fabrica de Glucoza Street. The total transaction value amounted to EUR 11.4 million and was fully settled through the transfer of residential units, with no cash or equity consideration.

On November 1st, 2025, the Company launched pre-sales for One Academy Club. The development targets the medium-high market segment and is estimated for completion in Q4 2027.

One Academy Club will have an estimated Gross Development Value (GDV) of EUR 50 million. Positioned close to One Lake Club and One High District, the project will include approximately 150 apartments, 6 commercial spaces, and 254 parking spaces, alongside a school, kindergarten, and sports hall. ANALYSIS OF THE FINANCIAL RESULTS

EARNINGS ANALYSIS

The consolidated turnover of One United Properties rose 15% YoY, reaching RON 1.2 billion in 9M 2025, up from RON 1 billion in 9M 2024. The Company's core business segment, residential property sales, accelerated by 19% in 9M 2025 to RON 975.7 million, supported by strong sales as well as good progress across multiple development sites. In line with this performance, net income from residential property increased 31% YoY to RON 359.6 million, driven by consistent, solid sales throughout the past year. With construction advancing across the entire sales portfolio, the residential segment's net margin improved to 36.9% in 9M 2025, compared to 33.5% recorded for 9M 2024. It is important to mention that this value well reflects the overall margin that One United Properties generates from the sale of residential units. As a principle, the Company targets, with each development, a net margin of minimum 35%. **For more information about the revenue recognition of residential sales at One United Properties, consult the dedicated chapter of this report, available [HERE](#).**

Rental income, comprising revenues from the commercial division and revenues from tenant services, reached RON 120.4 million in 9M 2025, increasing 6% versus the same period of last year. The moderate, single-digit increase reflects the stabilization for the commercial portfolio, which had a 98% lease rate as of September 30th, 2025, with 92% of tenants already being moved-in. The net rental income noted a 1% YoY increase, to RON 78.4 million.

In 9M 2025, One United Properties recorded gains from investment property for further development in the total amount of RON 88.6 million, a 279% YoY increase. The value fully reflects the acquisition of the land for the development of One City District, where the Group will build its first development targeting the affordable premium segment. It is important to notice, that a year prior the Group, recorded RON 79.2 million in gains from investment property fair value adjustment, representing rental apartments as well as gains related to One Technology District.

Administrative expenses decreased 16% YoY, amounting to RON 45.5 million. This decline was due to an enhanced cost optimization program carried across the whole Group, which started January 2025, and will continue for the remainder of the year. Other operating expenses increased by 20% to RON 11.4 million. Out of this amount, RON 2.1 million are CSR-related sponsorships, which are expected to be partially deducted from profit tax.

For the commercial segment, other property operating expenses increased by 4% YoY, to RON 6.1 million, due to cost inflation. Property operating expenses for the residential segment increased by 30%, to RON 6.6 million. This increase is due to more units being completed that are generating property expenses until they are handed over to final buyers.

The result from operating activity totaled RON 475.2 million in 9M 2025, reflecting a 22% increase supported by the 31% surge in net income from residential property sales and despite an overall 16% decrease in total gains recorded in the first nine months of 2025.

The gross result reached RON 426 million in 9M 2025, a 21% YoY increase, while net profit stood at RON 353.2 million, up 18% YoY. Income tax for 9M 2025 amounted to RON 72.8 million, up 36%, with RON 12.4 million in actual tax expenses and RON 60.4 million in deferred income tax on gains from fair value adjustments, which will only become taxable upon asset sale.

ASSETS

Total assets grew 11% in the first nine months of 2025, amounting to RON 6.1 billion. The non-current assets increased 9% in 9M 2025, to RON 3.2 billion, driven by a 9% increase in investment properties, to RON 3.1 billion as of the end of 9M 2025, representing mainly the commercial segment and the landbank. This increase was driven by the addition of One City District and Lake District Phase 3 to landbank to the investment properties category, and the growth of the value of One Technology District (+59%), One Gallery (+13%) and Mondrian Hotel (+7%) properties that are under construction. The solid increase in the investment properties was partially offset by a 33% decrease in residential units for rental that were sold.

Current assets increased 12% in the first nine months of 2025, reaching RON 2.9 billion, driven by an increase of 60% in trade receivables, to RON 1.2 billion and a 22% increase in advance payments to suppliers, to RON 218.5 million. On the other hand, the increases were offset by a 9% decrease in

inventories (residential properties), which amounted to RON 952.5 million as of the end of 9M 2025. The decrease in the inventory is due to continued strong sales across the residential portfolio and delivery of finalized units to end clients, paired with the fact that no new developments were added to the sales portfolio in the first nine months of 2025. Inventory at One Timpuri Noi decreased 92% in 9M 2025, followed by One Verdi Park, where the inventory decreased by 50%, One North Lofts, down 36%, and One Cotroceni Park Residential, down 31%. The rest of the developments saw a varying degree of increase or decrease, aligned with the residential sales evolution in 9M 2025, as presented in the business updates section.

Due to high level of activity across multiple construction sites, the cash position decreased 8% in the first nine months of 2025, down to RON 398.2 million.

EQUITY AND LIABILITIES

Equity grew by 9% in 9M 2025, reaching RON 3.8 billion. This increase was primarily driven by a 16% rise in the retained earnings, totaling RON 2 billion as of the end of 9M 2025. Own shares amounted to negative RON 24.1 million, increase of 68% representing the shares bought back from the market during 9M 2025, in line with the share buyback program initiated on December 12th, 2024 with the purpose of share cancellation ([more details HERE](#)).

The total liabilities increased 13% YoY in 9M 2025, amounting to RON 2.3 billion as of September 30th, 2025. The long-term liabilities grew 16%, up to RON 1.5 billion, while current liabilities increased 9%, to RON 853.9 million. The increase in current liabilities was primarily due to the 68% increase in short-term loans from bank and others, which amounted to RON 160.1 million as of the end of September 2025, and a 9% increase in advance payments from customers, which reached RON 383.9 million as of the end 9M 2025.

The increase in the non-current liabilities was driven by a 14% growth in loans and borrowings from banks and others, which amounted to RON 1.1 billion as of September 30th, 2025, driven by the drawdowns for One North Lofts, One Lake District, One Technology District and One Lake Club, as well as a 17% increase in deferred tax liabilities which amounted to RON 419.6 million.

Average maturity left for outstanding loans as of September 30th, 2025, was 6.7 years for bank loans

related to investment property assets (EUR 183.5 million) and 2.3 years for the bank loans related to development of residential property assets (EUR 39 million). Average interest margin over EURIBOR 3 months was between 1.5% to 3%.

Overall, the increase in the long-term loans for One United Properties is driven, on one hand, by the office and commercial buildings, which are financed using long-term loans. These loans do not impact the cash-flow since they are primarily paid from rental income, and a part of the loan is amortized each year. On the other hand, the developments targeting mid- and mid-high income (where the clients can contract apartments using a 30% down payment and a 70% payment upon delivery) require, on a relative basis, more debt than high and very high-income developments where clients pay the full amount over the construction period (100% prepayment or 5 equal instalments of 20%).

One United Properties increased as of the end of 9M 2025 the loan-to-value ratio with 4 percentage points, to 31%, still low when compared to European peers. Net debt stood at RON 837.2 million, representing just 14% of total assets, which reached RON 6.1 billion.

CASH INFLOWS

In 9M 2025, One United Properties saw cash inflows of EUR 106.9 million from contracted unit sales and pre-sales. Contractual cash-flows, meaning amounts to be received under pre-sales agreements concluded with customers as of September 30th, 2025, amount to EUR 372.6 million in additional cash by 2027 (EUR 46.6 million in 2025, EUR 232.2 million in 2026 and EUR 93.8 million in 2027). These already contracted inflows support predictable cash generation over the next two years. There are the amounts due only for the units that were pre-sold and are to be delivered in the future, excluding any sale done subsequent to September 30th, 2025.

As of September 30th, 2025, the sales team had a portfolio of 1,089 residential units available for sale and pre-sale. Additional 150 units located within One Academy Club development were added to the sales team portfolio on November 1st, 2025. To meet demand and capture interest in premium residential segments of Bucharest, the Company plans to further expand the sales pipeline in the coming months with new launches, including units at future developments One City Club and One Park Lane.

REVENUE RECOGNITION OF RESIDENTIAL SALES

One United Properties recognizes revenues based on pre-sales, matched with the percentage of completion method. The mix of sold vs unsold units, as well as the timing of these sales, particularly in relation to the reporting period, can impact recognized revenues and the associated profit margins.

The cost structure of a construction is seldom linear. Initial stages might involve higher expenses related to excavation, laying foundations, and infrastructure development, whereas later stages have costs associated with finishing, fittings, and interiors. Thus, as revenue is recognized based on the stage of completion, the costs paired with that revenue can fluctuate, leading to varying profit margins.

Moreover, One United Properties manages construction of multiple developments in parallel, each being at the time of financial reporting a different construction phase, thus having different cost structures. Consequently, some developments could be in their initial phase with heavy infrastructure investments, while others could be in the final stages with different types of costs. When revenues from these developments under construction are pooled together, the blended profit margin can show significant variations.

PRINCIPLE OF REVENUE RECOGNITION ACCORDING TO IFRS 15

The recognition of revenues from the sale of residential developments over the construction period, often referred to as the "percentage of completion method," is rooted in the principles outlined in the International Financial Reporting Standards (IFRS), particularly IFRS 15 "Revenue from Contracts with Customers." This method of revenue recognition is used due to:

- **Matching Principle:** Recognizing revenue over the construction period is in line with the matching principle, which suggests that revenues and expenses should be recognized in the same period they are earned or incurred. This allows for better matching of the revenue generated from a development with the expenses associated with that development over time.
- **Reflects Economic Reality:** This method allows the financial statements to better reflect the economic reality of the construction process, which is ongoing. Instead of recognizing all the revenue at once, it's recognized as value added to the development.
- **Smoother Earnings:** Recognizing revenue over the construction period can result in smoother earnings over multiple periods rather than volatile earnings that occur only when developments are completed.
- **Improved Cash Flow Prediction:** Recognizing revenue progressively provides stakeholders with a better understanding of incoming cash flows, leading to more informed financial planning.
- **Risk Assessment:** Recognizing revenue over time provides better visibility into developments that may be at risk of delays or not meeting expected profitability. This can allow management to take corrective actions more promptly.
- **Incentive Structure:** When revenue is recognized progressively, it might provide a more consistent incentive for project managers and the management team to ensure developments stay on track rather than deferring all efforts and recognition towards the end.

The disadvantage of the method is that, unlike the straightforward point-in-time recognition, the percentage of completion method adds layers of complexity, making financial statements harder to decipher for some investors and analysts, sometimes generating incorrect presumptions that the revenues or profitability of the Company is decreasing, while it is simply fluctuating due to many developments having different level of completion. Recognizing revenues from sales of residential developments over the construction period aligns with the IFRS framework's underlying principles and offers various benefits in terms of financial reporting and economic representation.

REVENUE AND PROFIT RECOGNITION EXAMPLE

Total Contract Value: EUR 1,000,000

Land cost: EUR 100,000

Development costs: EUR 500,000

Profit Margin: 40% (EUR 400,000 for the whole development)

Year 0 (Start of Contract):

- At sales kick-off, the client makes a prepayment of 30%, which amounts to EUR 300,000.
- No construction has been completed yet, so no revenue or profit is recognized at this point. The amount cashed in - EUR 300,000 is recorded as a liability on One United Properties' balance sheet.

Year 1 (End of First Year):

- Assume 50% of the construction is completed.
- 50% of the total contract value less land amount, or EUR 450,000, is the revenue that should be recognized by the end of Year 1 together with the amount of EUR 100,000 related to land which is recognized as revenue for 100% from year 1 and in correspondence the cost of sale, no margin being recorded to land value.
- The cost of sale represents 50% from the development costs of EUR 500,000, therefore EUR 250,000 at which is added the land cost of EUR 100,000 for 100% from year 1, as mentioned at the point above.
- As described above, EUR 550,000 represents the revenue, EUR 350,000 represents the cost, and EUR 200,000 is the profit.
- Given that One United Properties has already received EUR 300,000, the remaining amount (EUR 250,000) until the total revenue amount recorded of EUR 550,000 is recognized as contract assets under receivable line and the liability of EUR 300,000 is reversed.
- In terms of profit recognition for Year 1, One United Properties would recognize EUR 200,000 in profit (36% relative margin).

Year 2 (End of Second Year/Upon Delivery):

- The construction is 100% complete by the end of the second year.
- The total revenue to be recognized over the contract's duration is EUR 1,000,000.
- Also, EUR 600,000 (60% of EUR 1,000,000) represents the total cost, and EUR 400,000 (40% of EUR 1,000,000) is the total profit.
- Since EUR 550,000 revenue and EUR 200,000 profit were already recognized in Year 1, the remaining revenue to be recognized in Year 2 by One United Properties is EUR 450,000, with a profit of EUR 200,000 and relative margin of 44%.

Upon delivery, the client pays the remaining 70% of the contract value, or EUR 700,000, therefore the contract assets recognized in year 1 of EUR 250,000 is reversed and the remaining amount EUR 450,000 represents the revenue for year 2, as mentioned also in the point above.

At the contract's conclusion, the revenue recognized by One United Properties aligns with the construction progress and payments received: EUR 300,000 in Year 1 and EUR 700,000 in Year 2 for a total of EUR 1,000,000. From a profit perspective, One United Properties would recognize a profit of EUR 200,000 in Year 1 and another EUR 200,000 in Year 2, totaling EUR 400,000 for the unit.

Please note that the actual revenue recognition would also consider any costs incurred and other factors stipulated under IFRS 15. However, this example provides a simplified illustration to help understand the core concepts in practice.

REVENUE RECOGNITION OF INVESTMENT PROPERTIES

One United Properties manages its investment properties to earn rental income, for capital appreciation, or both. These properties are initially measured at cost and subsequently at fair value. Professional valuers assess the fair value at reporting dates, reflecting market conditions. Gains or losses from fair value adjustments are recognized in profit or loss as they occur. The company's investment properties include standing properties generating rental income, properties under development, and property for further development.

PRINCIPLE OF REVENUE RECOGNITION ACCORDING TO IAS 40

One United Properties follows the principles set forth in IAS 40 for recognizing gains from fair value adjustments of investment properties in profit or loss. This approach ensures accurate and transparent reporting of the company's financial performance related to its investment properties.

Investment properties are initially recognized at cost, incorporating transaction costs. Post initial recognition, these properties are measured at fair value. Changes in fair value are appraised semi-annually and immediately recognized in profit or loss.

Fair Value Measurement Techniques are:

- **Market Approach:** Utilizes market comparison technique based on observable data.
- **Discounted Cash-Flows (DCF):** Projects cash flows discounted at a market-derived rate.
- **Residual Approach:** Applies to properties with development potential, estimating the value post-development.
- **Income Approach:** Converts future cash flows to a current value, reflecting the property's income-producing ability.

Key valuation inputs include capitalization rate, terminal yield, discount rate, expected rental growth, and net market rent.

Investment properties' fair value is assessed regularly, typically semi-annually. Any fair value changes since the last measurement are recognized in profit or loss for that period. This includes both gains and losses.

Gains or losses from fair value adjustments are itemized in the income statement based on the category of the investment property, ensuring transparency and clarity for financial statement users.

ABOUT ONE UNITED PROPERTIES

One United Properties is the largest residential and mixed-use real estate developer and investor in Romania, listed on the Bucharest Stock Exchange since July 2021. The Company has a track record of having developed sustainable residential, mixed-use and office real estate in Bucharest and in Constanta (Mamaia).

With unparalleled reputation of a premium developer, ONE develops apartments for *medium, medium-high, high, and very high* income clients. ONE is a high-end brand and represents quality, design, community, sustainability, and finally, very desired locations. All ONE buildings have superior certifications of sustainability, energy efficiency and wellness, and the developer is awarded at numerous galas and conferences in the field, both internationally and locally.

RESIDENTIAL

Landmark developments, premium locations, quality, focus on design, great communities and sustainability are at the core of ONE's residential developments.

The Company started its business in this segment. The Company is involved in the classic development of the landbanks under built-to-sell model. With an unparalleled reputation as a premium developer, ONE develops apartments for medium-high, high, and very high-income clients.

OFFICE

ONE's office developments integrate an energetically efficient plan, being healthy and environmentally sustainable, with emphasis on the employee experience and wellness.

ONE entered the office market in 2017 to build a portfolio delivering recurring revenues. For the office segment, ONE develops Class A buildings. ONE's office portfolio includes both developed as well as acquired buildings.

RETAIL

Retail spaces bring value to the ample rich communities One United Properties is developing, offering all the facilities and services only a few steps away.

Initially, retail spaces were only built-to-sell. As of 2021, the company also develops retail spaces for rent.

2. BASIS OF PREPARATION

The condensed scope of reporting in these interim condensed consolidated financial statements reflects the requirements of the International Accounting Standard ("IAS") 34 "Interim Financial Reporting" adopted by the European Union. Information on the application of IFRS, on the significant accounting policies and on further disclosures is provided in the consolidated financial statements of Group as of 31 December 2024 and forms the basis for these consolidated interim financial statements.

However, some notes are included to explain events and transactions that are material to understanding the changes in the Group's financial position and performance from the latest consolidated annual financial statements at and for the year ended 31 December 2024.

The interim condensed consolidated financial statements for the nine-month period ended 30 September are unaudited.

The consolidated interim financial statements are presented in romanian new leu (“RON”, rounded). The use of automatic data processing equipment can lead to rounding differences in the addition of rounded amounts or percentage rates.

3. NEW STANDARDS, INTERPRETATIONS AND AMENDMENTS

The accounting policies adopted in the preparation of the interim condensed consolidated financial statements are consistent with those followed in the preparation of the Group’s annual consolidated financial statements for the year ended 31 December 2024. No new standards, interpretation or amendment with material impact on the financial statements of the Group has been issued for the first 9 months of 2025.

Goodwill

The goodwill in balance refers to One Peninsula, a subsidiary of the Group that develop a residential project in district 1, Bucharest. The Group tests goodwill annually for impairment or more frequently if there are indications that goodwill might be impaired.

As at 30 September 2025 and 31 December 2024, the Group performed the assessment of the recoverable amount of goodwill allocated to One Peninsula based on a value in use calculation taking in consideration the financial budget approved by the management which comprise forecasts of revenue, construction development costs and overheads based on current and anticipated market conditions and a discount rate of 3.30%.

6. INTANGIBLE ASSETS (continued)

As at 30 September 2025 and 31 December 2024, following the impairment test performed for One Peninsula, the Group assessed the recoverable amount of the identified CGU to which the goodwill, relates to be higher than its carrying amount, therefore no impairment loss is recognized.

Under the category "Concessions patents, licenses" is included the identifiable intangible asset acquired in 2022 in a business combination, related to Bucur Obor Brand, and which was recognized at fair value of RON 14.4 million. The brand "Bucur Obor" has been officially registered by the Bucur Obor SA since 2011, its first appearance being in 1975 when the Bucur Obor store was opened. The phrase "Bucur Obor" is associated with the location of the Bucur Obor commercial store, which is a commercial landmark of Bucharest. Part of the revenues generated by renting commercial spaces in the complex are directly attributable to the "Bucur Obor" brand.

As at 31 December 2024, the Group performed the assessment of the recoverable amount of the Bucur Obor Brand, considering a WACC rate of 14.06% and a risk premium of 2%. No significant indicators of impairment were identified.

7. INVESTMENT PROPERTY

The Group arranges for the regular valuation of its properties by independent experts. These external appraisals are carried out each year as 31 December and also during the year when there are indicators that the fair value is substantially changed.

After internal assessment, the fair value measurement of the investment properties was performed at 30 June 2025 using an independent appraiser only for the significant assets where changes in fair value were identified. For the remaining investment property assets the management considers no significant changes in fair value occurred compared to prior year-end valuation.

The Group holds mainly office and retail buildings, residential properties held to earn rentals and undeveloped land:

7. INVESTMENT PROPERTY (CONTINUED)**Valuation processes**

The Company's investment properties were valued at 31 December 2024 by Colliers Romania, external, independent evaluator, authorized by ANEVAR, having recent experience regarding the location and nature of the properties evaluated. The valuation models in accordance with those recommended by the International Valuation Standards Committee have been applied and are consistent with the principles in IFRS 13. At 30 June 2025, the significant assets were valued and also the assets acquired during 2025 as detailed above at the beginning of the chapter.

For all investment properties, their current use equates to the highest and best use. The valuation techniques used in determination of the fair value of investment property are:

- The fair values are determined through the application of the market comparison technique. The valuation model is based on a price per square meter for both land and buildings, derived from data observable in the market, in an active and transparent market;
- Discounted cash-flows (DCF) method. The valuation model based on the DCF method estimates the present value of net cash flows to be generated by a rented building considering occupancy rate and costs to be paid by the tenants. The discount rate estimation considers, inter alia, the quality of a building and its location;
- The Residual Approach of valuation is used when a property has development or redevelopment potential, and it is needed when there is an element of latent value that can be released by the expenditure of money on a property. This approach assumes that a potential buyer, who normally would be a developer, will acquire the subject property as at the date of valuation in its current condition and will develop it till completion and sell.
- The Income Approach-Direct Capitalization method provides an indication of value by converting future cash flow to a single current value. Under the income approach, the value of an asset is determined by reference to the value of income, cash flow or cost savings generated by the asset. A fundamental basis for the income approach is that investors expect to receive a return on their investments and that such a return should reflect the perceived level of risk in the investment.

Fair value hierarchy

Based on the inputs to the valuation technique, the fair value measurement for investment property has been categorized as Level 3 fair value at 30 September 2025 and 31 December 2024. This assessment is deemed appropriate considering the adjustments of the date for comparable lands and of the construction assessments, including future level of net operating revenues of the investment properties. These adjustments are based on location and condition and are not directly observable. There were no transfers from levels 1 and 2 to level 3 during the year.

Pursuant to the share capital decrease, the Company's share capital of RON 1,105,000,000 is divided into 110,500,000 nominative shares with a nominal value of RON 10 per share.

(ii) Legal reserve

The legal reserve of RON 32,999,007 as at 30 September 2025 (2024: RON 32,999,007) is established in accordance with the Company Law, according to which 5% of the statutory annual accounting profit is transferred to legal reserves until their balance reaches 20% of the company's share capital. If this reserve is used wholly or partially to cover losses or to distribute in any form (such as the issuance of new shares under the Company Law), it becomes taxable.

The management of the Group does not expect to use the legal reserve in a way that it becomes taxable (except as provided by the Fiscal Code, where the reserve constituted by the legal entities providing utilities to the companies that are being restructured, reorganized or privatized can be used to cover the losses of value of the share package obtained as a result of the debt conversion procedure, and the amounts intended for its subsequent replenishment are deductible when calculating taxable profit).

The accounting profit remaining after the distribution of the legal reserve is transferred to retained earnings at the beginning of the financial year following the year for which the annual financial statements are prepared, from where it will be distributed.

(iii) Other reserves – share based payments

The share-based payments reserve is used to recognise the value of equity-settled share-based payments provided to senior employees, as part of their remuneration.

On 19 April 2021, the General Shareholder Meeting (GSM) approved an algorithm proposed by the Board of Directors of the Company with respect to awarding certain bonifications to two executive members of the Board of Directors of One United Properties SA, which will materialize in granting a package of shares of maximum 5% of the share capital of the Company, no amount will be paid by the beneficiaries for granting and / or exercising an Option. This stock option plan (“SOP”) will be vested in the following 5 years, following the fulfilment of the performance conditions assessed on a yearly basis by the remuneration committee.

In case of exercising the Options, newly issued shares will be allocated by the holding company. The performance conditions that must be met in order to exercise the Options are: (a) holding the position of executive member of the Board of Directors at the Performance Measurement Date and (b) reaching a price per share according to an algorithm established by the decision of the Board of Directors and subsequently approved by the General Shareholder Meeting.

There are several law suits in which the Group entities are involved in the normal course of business, which in case of negative outcome, may have an effect on the Group's operations. However, the Group does not anticipate significant impact based on the status of these law suits at the issue date.

The Group in the normal course of business has given warranties for the quality of the apartments for 3 years and is obliged by the local legislation to guarantee the construction design on the entire lift time of the construction. Provision is made for the Directors' best estimate of all known legal claims and all legal actions in progress. The Group takes legal advice as to the likelihood of success of claims and actions and no provision is made where the Directors consider, based on that advice, that the action is unlikely to succeed.

The subsidiary, ONE Proiect 24 SRL, fully controlled by the Company have signed a promissory sale and purchase agreement for the acquisition of multiple plots of land located in a prime area of Sibiu, totaling approximately 28,825 sqm of land and existing buildings. This transaction marks One United Properties' entry into Sibiu, an important milestone in the Company's expansion strategy, following its established track record of high-end developments in Bucharest and Constanta.

The completion of the transaction is subject to the fulfillment of several conditions precedent, including the issuance of the final building permit, expected by the end of 2026.

27. CONTINGENCIES

The Romanian tax system is under continuous development, being subject to constant interpretations and changes, sometimes retrospectively applied. The statute of limitation for tax periods is 5 years. The Group management consider that the tax liabilities of the Group have been calculated and recorded according to the legal provisions.

The works on the One Modrojan project are suspended according to a court decision issued which has as an object the annulment of the urban area plan (PUZ) and building permit (AC). Several litigation cases related to this matter are ongoing, but no final decision has yet been reached. The Group management assessed the matter together with the legal counsel, and concluded the project will be finalized, and therefore there will be no requirement to repay any amounts received from customers and that the assets related to the projects are recoverable. The Group management do not consider the likelihood of an outflow of economic benefits to be probable and so no provisions are recorded in this respect. However, a contingent liability is identified in relation to obligations to customers in the event of an adverse final ruling in the litigation case. Additionally, the Group management has filed a warranty claim requesting compensation of EUR 71.7 million from the Municipality of Bucharest for damages caused by the issuance of documents that were later deemed illegal. This claim is currently suspended until the aforementioned litigations are finalized.

A recent Romanian Constitutional Court’s decision was issued on April 9, 2025, which represents a significant change, positively affecting the legal stability of the real estate sector in Romania. The decision declared unconstitutional the Supreme Court’s decision no. 10/2015, which had allowed building permits to be annulled if they were under litigation at the time the related Local Zoning Plan was annulled. This interpretation created legal uncertainty and was in contradiction with Article 23 of Law 554/2004, which clearly stated that the annulment of a Local Zoning Plan produces effects only for the future.

Following this decision, the original rule is now reinstated: once a building permit is legally issued, it remains valid even if the underlying Local Zoning Plan is later annulled. Therefore, the Constitutional Court’s Decision confirms that the annulment cannot affect existing permits, regardless of whether they are being challenged in court. This decision reestablishes the legal protection of rights already granted by administrative acts.

The Constitutional Court’s decision establishes a more predictable and secure legal framework for planning, investment, and construction in Romania, eliminating the risk of losing building permits due to the annulment of Local Zoning Plans. The ruling brings greater legal certainty to the real estate sector, encouraging stable growth and restoring investor confidence in the Romanian real estate development landscape.

28. EVENTS AFTER THE REPORTING PERIOD

After the reporting period, the Company acquired a plot of land with a total area of 14,295 square meters, located on Radu Tudoran Street, parallel to Fabrica de Glucoză Street in Bucharest. The total transaction value amounted to EUR 11.4 million, which was settled entirely through the transfer of residential units, with no cash component or capital contribution involved.

The interim condensed consolidated financial statements were approved by the Management of the Company, authorised for issue on 10 November 2025 and signed on its behalf by:

VICTOR CAPITANU
Administrator

VALENTIN-COSMIN SAMOILA
Chief Financial Officer
