Important events to report: Relevant decision of the Constitutional Court of Romania

The management of One United Properties S.A. (the "Company") informs the market about the recent Romanian Constitutional Court's decision from April 9, 2025, which represents a significant change, positively affecting the legal stability of the real estate sector in Romania. The decision declared unconstitutional the Supreme Court's decision no. 10/2015, which had allowed building permits to be annulled if they were under litigation at the time the related Local Zoning Plan was annulled. This interpretation created legal uncertainty and was in contradiction with Article 23 of Law 554/2004, which clearly stated that the annulment of a Local Zoning Plan produces effects only for the future.

Following this decision, the original rule is now reinstated: once a building permit is legally issued, it remains valid even if the underlying Local Zoning Plan is later annulled. Therefore, the Constitutional Court's Decision confirms that the annulment cannot affect existing permits, regardless of whether they are being challenged in court. This decision reestablishes the legal protection of rights already granted by administrative acts.

The Constitutional Court's decision establishes a more predictable and secure legal framework for planning, investment, and construction in Romania, eliminating the risk of losing building permits due to the annulment of Local Zoning Plans. The ruling brings greater legal certainty to the real estate sector, encouraging stable growth and restoring investor confidence in the Romanian real estate development landscape.
